

TEXAS A&M PRE-CHIROPRACTIC SOCIETY

April 5, 2011

Dear Dr. Campion,

First and foremost, we would like to tell you how much we appreciate everything you have done for our organization. I am writing on behalf of the Texas A&M Pre-Chiropractic Society, and I want to say that a simple hour of your time and words can go a long way, and can have such a powerful and positive influence on someone's life. And for Texas A&M Pre-Chiropractic Society, we cannot begin to describe your generosity and how grateful we are to have speakers like you to illustrate the beauty of the Chiropractic profession, and impact on us as you did.

I am very grateful that we had you come speak to us during our meeting for so many reasons. We were able to witness such an amazing story of how you've had to build your way up without virtually any support, and that you were able to become successful on your own. It inspires me to that we can do anything, with hard work, and dedication. I really enjoyed hearing about the business aspect of your clinic, and how we have to truly "know what we are talking about" and your emphasis on service in your practice. I have learned that it is important to look for relationships with M.D.'s and dentists etc, and being able to reciprocate the referrals to one another. I would like to tell you how much we appreciate you allowing us to shadow you and your staff at your clinic. The experiences of how a clinic is ran, we soak in are priceless. I personally have learned a lot in the hour I was in your clinic. The fluidity of the system you have established amazes me.

Again, thank you so much for your time with us, and we appreciate your relationship with us. Your story has truly inspired me, personally. I hope to see you soon!

Thanks and Gig em!
